After June 2021, these comments were to be posted so public didn't have to submit a public records request to read these. I was told these comments could be viewed at <a href="https://irc.az.gov/contact-us/public-comments">https://irc.az.gov/contact-us/public-comments</a> . But when I try that link I get message that access is denied and to contact site administration.

My strength is organizing things, management and detail office work. I am not a good fund raiser. I would volunteer and am over 65, therefore very available.

Although it was not immediately obvious where to find the public comments on the Newsroom site, I did find the WEB PUBLIC COMMENTS under Contact Us.  I notice that the PUBLIC MEETING COMMENTS (comments submitted through the Public Meeting portal during live meetings) are not included on the Newsroom website.  Is it possible to include the Public Meeting link ( <a href="https://irc.az.gov/public-meetings">https://irc.az.gov/public-meetings</a> ) on the Newsroom website? Having access to both WEB PUBLIC COMMENTS and PUBLIC MEETING COMMENTS on the Newsroom site would be very helpful and would promote transparency.  Thank you for your consideration.
07/06/2021 - 13:51	07/06/2021 - 13:51	07/06/2021 - 13:51	Hope Busto-Keyes	Who/What/When/Where /How of IRC Community Meetings	Dear Commissioners,  The first suggested redistricting public meeting, July 22nd, is just around the corner. If the goal is to alert the public about this first round of meetings, now, this week, is the time to announce them.  Personally, the more advanced and reminder notices I receive about an important meeting, the more likely I will attend.  In addition to digital announcements (email, tweets, FB posts, etc.), mailings, news print and radio/TV announcements that include the date/time/place and how to prepare to give live comment or submit online comment, would greatly enhance the probability of participation by the public.  I look forward to receiving your meeting schedule updates and reminders.  Thank you for your consideration.
