| 01/04/2022 - 11:33 | Molly L. Smith | Re-districting reconsideration | I urge you not to adopt the current proposed Congressional re-districting proposal. Your hard work on this matter will appear to have the stain of partisanship if it is adopted as currently proposed. |
| 01/04/2022 - 11:36 | Anthony Wisniewski | IRC | Your tasking is to give the state equal non gerrymandered district coverage? Tom Wisniewski |
| 01/04/2022 - 11:57 | Robert J Rodrigues | Arizona redistricting map | Redistricting which is done every 10 years is supposed be be done on a non-partison basis. However, the current versions of redistricting maps appear to favor the Republican party and was not drawn in a non-partison manner. The Redistricting Commission should reject the current version of the redistricting map. |
| 01/04/2022 - 13:09 | Livingston Sutro | Current redistricting map | Rather than use the proposed redistricting map, why don't you create a map that is fair to people of all political persuasions? |
| 01/04/2022 - 19:07 | Mary Herrera Mabry | Gerrymandering | Disheartening what is transpiring in the remapping of our congressional districts. Blatant and dishonest acts to undermine the voting rights of Arizonans. |
| 01/05/2022 - 12:31 | Michelle Lacy | Arizona Redistricting | I am writing in regards to redistricting updates in Arizona. Can you tell me if there is a date yet for when the new redistricting lines have to be finalized by? Is there a map or shapefile source available for the updated lines at the county level, specifically for Justice of the Peace and Constable Precincts? Is there another department you might be able to direct me to that could help me with this information? |
| 01/05/2022 - 18:37 | Iris J Adler | IRC Plan CDF001 | REJECT the GOP Gerrymander. The Congressional map is "warped" by the increasingly radicalized Repub. Party. |
| 01/06/2022 - 13:01 | Nick Fierro | District Boundaries | Hello prior to the redistricting I was in District 16 as a candidate for State Senate. Based on the finalized maps I am now either in District 15 or District 16. These finalized maps do not have defined streets. Can I be given a finalized map of District 15 and 16 with street names for their given boundaries? |
| 01/06/2022 - 15:11 | Diane Niemann | Map cuts My Precinct in half | I am a Republican P.C. In formally LD 15 and my Precinct of Coyote Basin was split in half at Beardsley Road by the new map so 1/2 north to LD 3 and Half to LD 2 to the south of Beardsley Road. I request that the southern- most loop down of LD3 from the 101 interstate at CaveCreek Road East toward 32nd Street down to Beardsley Road remain in LD 2. |
| 01/06/2022 - 15:12 | Diane Niemann | Map cuts My Precinct in half | I am a Republican P.C. In formally LD 15 and my Precinct of Coyote Basin was split in half at Beardsley Road by the new map so 1/2 north to LD 3 and Half to LD 2 to the south of Beardsley Road. I request that the southern- most loop down of LD3 from the 101 interstate at CaveCreek Road East toward 32nd Street down to Beardsley Road remain in LD 2. |
| 01/06/2022 - 20:08 | Daniel Frey | competitiveness in southeastern AZ LDs | One of the major contributors to political polarization in this country is the lack of competitiveness in our elections. It pains me to see how few congressional and legislative district elections are competitive. This will only make the situation worse, and the IRC should be ashamed of what it has done. |
| 01/07/2022 - 20:42 | James P Lombard | Effective Date of Legislation | Please advise what is the effective date of the IRC legislation to reapportion new Arizona voting districts? Will the effective date be the date the governor signs his approval?? |
| 01/08/2022 - 05:15 | Janet Patrick | Final CD map from just a voter | I am appealing for direction on how to have the final CD map modified before certification. Early in the process, I testified and entered comments to correct the oversight that the a small section of north Mesa had been separated from the city on both the LD and CD maps. From CD 3.5, and LD 5.1 this had been corrected, and I was satisfied that our interests were protected. However, on Dec 20, 2021, a potion of our neighborhood had been moved out of any Mesa CD. I feel a strong personal responsibility not to have caught this sooner. Please advise me on how to have this error addressed. |
| 01/08/2022 - 14:40 | Shawn Vandyke | District 5 | North of camelback should be district 2 or 4. We have nothing in common with south of camelback or west of 15th avenue. This is a large mistake. |
