10/14/2021 - 08:53	Filis Cardieri	AZ Redistricting	Hello! My husband and I have been living in Vail, AZ in Pima County for 36 years. We the people who reside in the unincorporated area of Vail have been progressively losing representation by redistricting with including the city of Tucson. The unincorporated areas in Pima county have very different needs from the city of Tucson for example: the city of Tucson has a higher crime rate, lower income residence, higher welfare, higher sales tax rate, crowded conditions, more vehicle traffic, many city restrictions and regulations. Even though Pima County residence enjoy more freedoms with less restrictions, regulations and lower sales tax, unincorporated areas have separate needs for example: the need for faster internet service, better cellular phone service, more and better maintained roads and bridges, and a lower property tax because fire, police, garbage, and sewage are not included. Thank you, Filis Cardieri, Pima County, Vail, AZ 85641
10/14/2021 - 08:58	Lynne Huddon	Video recordings of Second Listening Tour, especially 9/29/21	I was in flight during the 9/29 listening tour stop and would like to view it, as I reside in Tucson. I keep looking on the IRC site to see if the tape is available for viewing. When might we expect it?
10/14/2021 - 10:01	Brandon Hiller	District 4	District 4 is perfect. It does a great job of keeping communities of interest together. I recommend keeping District 4 as is on this new map. Thank you.
10/14/2021 - 10:13	David Simmons	Redistricting	Map 2.2 keeps communities together and stronger in District 4
10/14/2021 - 10:15	David Simmons	Redistricting	Please leave district 4 alone. It is fine the way it is
10/14/2021 - 10:17	Sofia Lyon	Keep the maps!	Please keep the maps as-is!
10/14/2021 - 10:22	Roxanne Majeski Hiller	Map 2.2	Map 2.2 does a great job of keeping communities together in District 4.
10/14/2021 - 10:22	Alex Smith	Map 2.2	Map 2.2 does a great job of keeping communities together in District 4.
10/14/2021 - 11:24	Evelyn Lathram	Oro Valley community of interest	The community of interest for Oro Valley was NOT taken into consideration in map "LD Test Map Version 2.0". It is in a district with no commonalities; most of Pinal County. The town of Oro Valley is in northern Pima County and consider Casa Adobes and north Tucson to be communities of interest. That is where we work, shop, and play. We get our news from Tucson TV and print outlets. Pinal County gets their news from Phoenix. Oro Valley is a suburb of Tucson. Pinal County is mostly rural. We in Oro Valley do not want to be in a district with Pinal County. Thank you.
10/14/2021 - 12:02	Lori Hiller	District 4	District 4 is perfect in Map 2.2. It does a great job of being competitive and keeping cities and towns together that meet each others needs.
10/14/2021 - 14:58	Lynne Hudson	Process going forward	<p>Each new IRC is required to start from arbitrary grid maps that reflect population shifts and other conditions on the ground, but there are valid reasons to not ignore the 2011 maps completely, the most important being that those maps were approved despite legal challenges.</p> <p>Mapping suggestions from the public often advocate for changes that are consistent with their COIs, without incorporating the other five required criteria. This is understandable because Arizonans are more knowledgeable about and likely more invested in their COIs than in the other criteria.</p> <p>I commend the IRC for being responsive to plans submitted by every Arizonan, but given the complexity of their task and their abbreviated timeline, it may be advisable in some cases for them to say thanks for your interest and input, explain clearly why a suggestion is not workable, and move on. As Doug Johnson often reminds us, commissioners should be looking for the best ideas, and not be swayed by the number of people who offer a suggestion or how loudly and passionately they advocate for it.</p> <p>The IRC has received its share of unwarranted partisan suggestions, but it has also received many serious plans that respect the interests and rights of all Arizonans while also abiding by the six criteria required by the law. I am in awe of and grateful for the knowledge, expertise, time, and commitment to social justice that the authors of these suggestions have brought to the table.</p> <p>I am confident that every member of the IRC has the capacity to integrate the information, collaborate with colleagues, and render an unbiased judgment, despite their personal political leanings. This is all I ask.</p>

10/14/2021 - 20:20	Daniel Poffinbarger	Redistricting	Map 2.2 keeps communities together and stronger in District 4, so please keep it as is.
10/14/2021 - 20:46	Kayla Poffinbarger	District 4	The communities in District 4 are connected now more than ever - I attribute that to Map 2.2!
