

1 pretty much the 84 freeway up here until you get into
2 Buckeye and then it cuts over and goes down the 10 freeway.

3 It takes a little bit to the north of the 10
4 freeway, if you'll notice up here on the border it doesn't
5 follow the freeway exactly; and then it ends pretty much at
6 the brand-new 202 loop that's in the West Valley that
7 connects the East Valley.

8 COMMISSIONER LERNER: Just -- I can't see. I can't
9 see.

10 MR. FLAHAN: 5. The lime green is 5.

11 And then right under 5 in the aqua color that's
12 going out to the east, that is District 1 and that's pretty
13 much taking most of South Phoenix, including Downtown
14 Phoenix. As you can see it cuts up there, it sort of cuts
15 Downtown Phoenix in half and goes out to the airport
16 property; and then coming back down which I think is 143.

17 MR. D. JOHNSON: 143.

18 MR. FLAHAN: Yep, exactly; and then it does include
19 the city of Guadalupe.

20 If we go back up to the north, D-4 is what is
21 sitting right on top of D-5 and that includes Luke Air Force
22 Base, probably the southern half of Glendale if you want to
23 turn on the city layer.

24 You guys are getting my first read on this too.

25 So it is taking the southern half of Glendale, the

1 leg that sticks out here and below it, it is also getting
2 probably Litchfield Park.

3 COMMISSIONER YORK: How far north does D-4 go?

4 MR. FLAHAN: It goes all the way up -- to Northern
5 Avenue is the top border there.

6 It does include Litchfield Park. It probably does
7 include the western part of Phoenix also.

8 And I'll turn off Phoenix.

9 Yep, it does include the western part of Phoenix
10 and the eastern border is 67th Avenue.

11 And at 67th Avenue, that is where District 3 picks
12 up, it has parts of the city of Glendale, it has parts of
13 the city of Phoenix. It does peak, it goes up to the next
14 street which is Olive Avenue, goes across Olive to the I-17,
15 comes down I-17 and then it takes the next major block to
16 the east of I-17 which is 19th Avenue. It goes down 19th
17 Avenue to -- Indian School Road is the bottom line here for
18 District 3.

19 And then just south of that in the blue color is
20 District 2. It is a narrow east-west district, and on the
21 west again it is 67th Avenue; the top border is Indian
22 School; the southern border is McDowell until it dips down
23 at the Loop 202 and then it goes to Buckeye; it takes
24 Buckeye to 19th Avenue, comes up 19th Avenue and then cuts
25 across the Downtown Phoenix area on Van Buren Street, all

1 the way over to Papago Park and the zoo, and then it comes
2 back up -- and back up to Thomas and then it takes Thomas
3 all the way over and that's that top border.

4 And those are all of Phoenix.

5 COMMISSIONER LERNER: Just tell us on the west --
6 westernmost district, does it go over into Tolleson or
7 Avondale?

8 COMMISSIONER YORK: District 5 is in Tolleson, yes.

9 COMMISSIONER LERNER: It is? Okay. I just didn't
10 catch that.

11 COMMISSIONER YORK: Tolleson is basically at the --
12 where the Highway 202 comes into the 10.

13 MR. FLAHAN: The -- the red is --

14 COMMISSIONER YORK: District 4.

15 MR. FLAHAN: -- Tolleson.

16 COMMISSIONER LERNER: Okay. Thank you.

17 MR. FLAHAN: I believe it probably does include
18 some of Avondale, but I can put that on the screen.

19 MR. D. JOHNSON: I think it's going all the way to
20 Buckeye.

21 COMMISSIONER YORK: It's got Buckeye, it's got
22 Goodyear, it's got --

23 MR. FLAHAN: Avondale. Yep. Goodyear, Buckeye.

24 CHAIRPERSON NEUBERG: So -- so this may be an
25 unfair question 'cause you haven't had time to really, you

1 know, digest the map, but what I'm curious about because
2 this is just -- it's hard for me to absorb all of this, how
3 do they have eight and we have seven? Where are those
4 differences and where are those points that we maybe should
5 study tonight to see --

6 MR. D. JOHNSON: Sure.

7 CHAIRPERSON NEUBERG: -- differences, yeah.

8 MR. D. JOHNSON: So actually just to clarify. They
9 have eight Latino seats, so when you add a Native American
10 they would actually have nine compared to ours.

11 So ours currently has -- the current working map
12 has probably six; one of those six actually doesn't perform
13 on the governor's race, it only performs on the attorney
14 general's race, so five and a half or six in the current map
15 plus Native American; and so they -- this would essentially
16 have two more than our current map does and one more than
17 the exist- -- existing legislative districts that are in
18 place now have.

19 So -- so there will be big changes between our map
20 and -- and that was -- obviously, that was expected. We
21 have not spent a lot of time trying to redraw ours in
22 anticipation of this input coming in.

23 COMMISSIONER LERNER: And -- and we had also talked
24 about the fact of eight plus the two opportunity that
25 happened last time. So this eight-plus-one would kind of

1 fit within that, right?

2 Will this be available for us, then, tonight?

3 MR. FLAHAN: Yes. It's been shared. It's actually
4 in the redistricting system and it is shared to everybody
5 that has a redistricting account, including the public. So
6 anybody that wants to take a look at these eight districts,
7 you're more than welcome to.

8 COMMISSIONER MEHL: And how are they labeled? Is
9 it Latino...

10 MR. FLAHAN: Oh.

11 COMMISSIONER MEHL: The Latino Coalition or what?

12 MR. FLAHAN: Yeah. Go ahead and go "open," and
13 it's "AZ Latino Coalition Legislator," this very top one.

14 COMMISSIONER MEHL: Thank you.

15 MR. FLAHAN: You're very welcome.

16 COMMISSIONER LERNER: Will we be able to pull
17 demographics from it or not because it's an incomplete of
18 the whole...

19 MR. FLAHAN: You can pull demographics. Here's the
20 demographics here on the screen that you're looking at.

21 So if we took District 1 here, it looks like the
22 Latino percentage for District 1 is 46.34. Just be aware
23 that there is this big unassigned district of 5 million
24 people, which is just -- just ignore the gray "unassigned."

25 But yes, the -- the percentages for ethnic groups

1 is correct per -- per district that's there.

2 COMMISSIONER LERNER: Thank you.

3 MR. FLAHAN: And -- and so with the competitive
4 data before each district, too.

5 COMMISSIONER MEHL: And could you show us the
6 southern Arizona impact on this in a little more detail,
7 too?

8 MR. FLAHAN: Yes.

9 So D-6, that big southern lime green district, that
10 does come up; I do not think that it goes into Arizona City,
11 which it does not; it comes down, leaves out the city of
12 Marana -- just to make sure I'll put the border on the
13 screen -- yep, it borders -- it just borders the Marana town
14 limits so it doesn't cross there -- yep.

15 It does cross the I-10 freeway it looks like in the
16 River Road area, that's down here; and it goes down to west
17 Roger Road and Garden Lane -- or Gardner Lane.

18 At that point it comes back to the I-10 freeway and
19 it goes back west on Grant Road and then sort of snakes down
20 the Camino Del Solo Road -- I might have just butchered
21 that, you're more familiar in the area than I am.

22 COMMISSIONER MEHL: Close enough.

23 MR. FLAHAN: And then it cuts down.

24 But we'll -- you will notice that it sort of has a
25 D-7 in the middle here. So this is D-7 and it comes across,

1 it takes in Ajo Highway, which is I think State Route 86, it
2 comes across I-19 over to Tucson Boulevard -- hold on, let
3 me -- let me turn some of this stuff off.

4 There we go. I can read it better.

5 Yep, up Tucson Boulevard and then back up to the
6 north and sort of takes the city core of South Tucson and
7 Tucson up to the north until it ends at Roger Road.

8 COMMISSIONER MEHL: So on the map I've asked for
9 just the additional version to look at that would have
10 Marana and Oro Valley together, I think there's actually
11 things that we can learn from -- from this map that would
12 help us with that.

13 So I would encourage you to achieve the map I've
14 asked for, to take a look at this and see how much of it you
15 can incorporate in. I don't think it comes in whole cloth,
16 but I think there's some good things that actually combine
17 this with what I was asking for.

18 MR. FLAHAN: And then the last district, District
19 8, you can see over here comes out, Davis-Monthan Air Force
20 base is included in that; and it goes out to the east,
21 crosses the I-10 freeway; goes south, Sahuarita is included
22 in District 3 -- or, sorry, District 8; goes down, Green
23 Valley is included in their District 8; and it continues to
24 go south all the way down to Nogales out to Patagonia and
25 out to Eagle and out to the east.

1 And then it's --

2 COMMISSIONER MEHL: For -- for my requested version
3 map, don't -- don't take it all the way out to the east
4 there. So I'm not too fond of that one, but...

5 MR. FLAHAN: It slowly goes around Sierra Vista and
6 out to the New Mexico border.

7 COMMISSIONER LERNER: Well, I think those are -- I
8 think the reason it's going all the way over there is that
9 you've got Douglas over there which is a very high --

10 COMMISSIONER MEHL: Yeah.

11 COMMISSIONER LERNER: You know why. Okay.

12 MR. FLAHAN: And that would be all eight of the
13 districts they submitted.

14 COMMISSIONER LERNER: When -- when you incorporate
15 this all in, then you'll just renumber them as they would
16 fit into our system and so we can kind of see how -- how it
17 all fits together, right? That's --

18 MR. D. JOHNSON: Well, that -- that is what we're
19 looking for is -- is direction in terms of how much of this
20 you really would like to see us incorporate in as we -- as
21 we draw the next version, Commissioner Mehl talked about in
22 the city of Tucson trying to incorporate that.

23 COMMISSIONER YORK: Yeah, well, I'm just kind of
24 struggling with the populations.

25 The LDs are supposed to have roughly how many --

1 how many people? Two hundred, I thought.

2 COMMISSIONER MEHL: 240.

3 MR. FLAHAN: I can grab that, hold on.

4 COMMISSIONER LERNER: 238, 384. I have it in big
5 print on my paper.

6 COMMISSIONER YORK: Yeah, well, I can see it over
7 here but this map has quite a bit more in some and quite a
8 bit less in others.

9 So maybe, I mean...

10 COMMISSIONER LERNER: They're pretty close in
11 looking at it, right?

12 The numbers aren't too far off; they're not exact,
13 but they're pretty close.

14 COMMISSIONER YORK: Okay.

15 MR. D. JOHNSON: Just -- the challenge of -- of
16 importing this quickly, the -- the target deviation and
17 target deviation percentage it's calculating are off the
18 congressional map. So we'll fix that, so.

19 COMMISSIONER YORK: Okay.

20 COMMISSIONER MEHL: They're not actually 75 percent
21 short; they're very close.

22 COMMISSIONER YORK: Okay.

23 COMMISSIONER LERNER: So I guess that would be my
24 question is could we -- if it's okay with everybody, can we
25 see if we can have these incorporated into map 3.2?

1 COMMISSIONER YORK: Version of that, yeah.

2 COMMISSIONER LERNER: That version of 3.2, put
3 these in there and then we can work, including Commissioner
4 Mehl's request on Oro Valley and Marana, and then see how
5 those look?

6 COMMISSIONER MEHL: Yeah, and that may be several
7 different versions. That doesn't necessarily mean that's
8 just one -- you may have two or three ways of wanting to
9 look at it that you'd want to show us.

10 COMMISSIONER YORK: Get the population balance of
11 Maricopa County in.

12 MR. FLAHAN: I -- I reset the target deviation to
13 be the correct deviation.

14 So you can see here, the biggest deviation is 4.06
15 for District 3. It's about 9,600 people off.

16 COMMISSIONER YORK: Yeah.

17 MR. D. JOHNSON: So, yeah, so that sounds like
18 consensus, am I correct, that we should incorporate these in
19 and see how they -- the impact is we fit them into the --
20 the rest of 3.2 and --

21 COMMISSIONER MEHL: I would encourage you that if
22 you -- you might want to do one version where you totally
23 incorporate them in and then do another version where you
24 take a lot of what they have but not necessarily all of it,
25 and try to incorporate it with other things you think that

1 work well.

2 COMMISSIONER YORK: Because they get to eight
3 minority districts, right?

4 COMMISSIONER MEHL: Yeah.

5 COMMISSIONER YORK: And, I mean, plus the Native
6 Americans, I mean, we're -- we're striving to get to eight
7 which is what we currently have.

8 MR. D. JOHNSON: So this would actually be nine.

9 COMMISSIONER YORK: Right, no, exactly. So I guess
10 that was what I was saying.

11 CHAIRPERSON NEUBERG: Along Commissioner Mehl's
12 comment, I'm happy to go along with, you know, drawing what
13 may, you know, happen, incorporating all of their feedback;
14 but -- but more importantly, I'm interested in how that
15 feedback can help us accomplish our goal and fit in with our
16 larger vision; and -- and so I know that that does, you
17 know, give you some responsibility in playing around with
18 the iterations of the maps, but -- but we've created a
19 vision and I don't want that map to drive, you know, the
20 larger decisions, you know, emanating outwards.

21 But I'm open to two maps where we go with the full,
22 you know, Latino group and see what -- what plays out; and
23 if it's wonderful then, hey, you know, it's great.

24 MR. D. JOHNSON: And it is notable to -- to the
25 earlier discussion about the congressional map, too, it's

1 worth noting these eight districts drawn -- doing a quick
2 count -- six of them are not 50 percent Latino. So the
3 question about District 7 and can we get to 50 percent,
4 well, you know, it's more about do they perform and are they
5 effective than it is hitting that magic number, 'cause
6 here's, you know, eight presumably effective districts
7 coming from the coalition, that are -- six of which are not
8 at 50 percent but they all perform and hit our benchmarks.

9 CHAIRPERSON NEUBERG: Yeah, that's -- so of the
10 Latino legislative districts that they submitted, did any --
11 I mean, how many of them reached the 50 percent threshold?

12 COMMISSIONER LERNER: Two.

13 CHAIRPERSON NEUBERG: Just two.

14 COMMISSIONER YORK: Yeah. Number 2 or number 7.

15 CHAIRPERSON NEUBERG: Okay.

16 COMMISSIONER YORK: Or number 6, I'm sorry.

17 CHAIRPERSON NEUBERG: Number 7 is within --

18 COMMISSIONER MEHL: Yeah, I think we're going to
19 find that there's a lot of reason we don't need to worry
20 about getting all the way to 50 percent as long as it
21 performs under all these tests but we'll hear -- we'll hear
22 from our esteemed counsel tomorrow more on that.

23 CHAIRPERSON NEUBERG: Well, especially when our aim
24 is to be empowering the Latino community to the greatest
25 extent possible.

1 So we'll see what we can do.

2 COMMISSIONER LERNER: And there's some others that
3 are -- are very close --

4 COMMISSIONER YORK: Yeah.

5 COMMISSIONER LERNER: -- to that as well, so
6 they're within -- they're certainly within range. You have
7 one which is six-tenths off, so it's -- but -- but it would
8 be interesting just to kind of -- I think to me it would be
9 interesting and I'm all for just kind of seeing how they
10 worked together, that's why I was curious on the overlay and
11 having two maps -- or at least two maps tomorrow, one with
12 them and one where -- which incorporates some of the other
13 things that we've been talking about and seeing how that all
14 fits together and then -- I'm not sure of the other one, the
15 second map.

16 COMMISSIONER YORK: Well, this is a -- this is -- I
17 think we got a good start. We've got to reset the Maricopa
18 County population on 3.2 and then kind of try to incorporate
19 this and see where we land? Is that...

20 MR. D. JOHNSON: Yes. Just summarizing I think
21 what we've heard to make sure -- so we've got: Work from
22 3.2, do the population balancing as you're just saying;
23 we'll do the Kyrene School District challenge -- change; do
24 the Oro Valley -- put Oro Valley and Marana together in one
25 legislative district; and then incorporate -- incorporate

1 the Latino Coalition districts and maybe incorporate them in
2 one, very -- very likely end up needing two to show the
3 different ways of incorporating.

4 COMMISSIONER YORK: Okay.

5 COMMISSIONER MEHL: Can we have that by 8 o'clock
6 tonight to review? That's probably --

7 MR. FLAHAN: Couldn't hear it.

8 CHAIRPERSON NEUBERG: Okay. Anything else that
9 would be helpful for you just in terms of decision-making
10 and -- and helping you have -- have focus?

11 MR. FLAHAN: You know, I do have a question on 3.2.
12 We had the north and south district in Phoenix following the
13 river.

14 COMMISSIONER YORK: It's Tucson you're showing.

15 MR. FLAHAN: Tucson, sorry.

16 Is that something that you guys want to continue
17 incorporating? I know this isn't 3.2, but following the
18 river?

19 I can bring it up.

20 COMMISSIONER YORK: I think that's a -- I think
21 that makes sense.

22 COMMISSIONER MEHL: Yeah, I think -- I think that's
23 excellent. That's one of the -- one of the things I liked
24 about 3.2 is the way that was shown, the difference.

25 And if anything, District 17 -- if 18 had to push

1 over to the -- to the east a little in order to get more
2 stuff working for 20 on the west or whatever those districts
3 end up being, if 17 had to give up something in the inner
4 city and go out a little farther to the freeway past Casas
5 Adobes, that probably would be an improvement.

6 MR. FLAHAN: Okay. So that's -- that's keeping the
7 river sort of as the boundary?

8 COMMISSIONER MEHL: Yes.

9 MR. FLAHAN: Okay.

10 COMMISSIONER MEHL: And that's going to be a -- a
11 swing district, that's going to be a toss-up district, or --
12 you know, one way or the other. Yeah. So it will be one of
13 the very competitive districts.

14 COMMISSIONER LERNER: Which district again? Could
15 you give me the number again? I'm sorry.

16 COMMISSIONER MEHL: D-17.

17 COMMISSIONER LERNER: 17. Thank you.

18 COMMISSIONER YORK: North of the river.

19 COMMISSIONER LERNER: So is that one where
20 you're -- are we taking Casas Adobes -- leaving it there or
21 we putting that with Oro Valley? Because I seem to remember
22 that they wanted to be together.

23 COMMISSIONER MEHL: At this point we're leaving it
24 where it is.

25 COMMISSIONER LERNER: But that might change at some

1 point?

2 COMMISSIONER MEHL: Yeah.

3 COMMISSIONER LERNER: I kind of remember --

4 COMMISSIONER MEHL: I think we're going to have a
5 bunch of different things to look at.

6 COMMISSIONER LERNER: Yeah, I remember the
7 discussion and I thought that they were interested in being
8 further north with that district, but...

9 CHAIRPERSON NEUBERG: I want to remind my
10 colleagues that at some point we're allowed to vote to lock
11 things in. And I'm not suggesting we do it today, but
12 tomorrow is Tuesday. And as -- I mean, I'm just saying that
13 I'm -- I'm starting to begin to hear some consensus of
14 general issues and -- and just if there are even just tiny
15 little areas without the broader picture, just bringing that
16 out there as an option for not today.

17 MR. FLAHAN: I -- I don't think we have anything
18 else from our side. I could go check the workroom to see if
19 they have any changes that were made this morning if you
20 give me a second to step out.

21 CHAIRPERSON NEUBERG: Yeah, that -- that'd be great
22 and if there's anything on the CD front that you want us
23 to -- is that what you just said? Okay.

24 MR. D. JOHNSON: That's what he's going to check
25 on. Thank you.

1 CHAIRPERSON NEUBERG: Okay.

2 And what we'll do is, after this we'll adjourn.
3 There is some Executive Director's report, but I believe
4 that we'll address that tomorrow since we addressed whatever
5 timely issues we had today.

6 COMMISSIONER LERNER: I have a question.

7 CHAIRPERSON NEUBERG: Yes.

8 COMMISSIONER LERNER: In terms of this -- the
9 racial -- racially polarized data, when is it a good time to
10 start bringing those in?

11 Now that we're looking at the legislative maps,
12 should we be looking at those in the counties? Should we --
13 at some point we need to start bringing that information in
14 as we're starting to narrow down our focus.

15 MR. D. JOHNSON: Yeah, I would say -- I would just
16 note -- for Legal talk to you. We are using that data.
17 Each time we check the -- those citizen voting age
18 population numbers and the attorney general's race and the
19 governor's race, we are -- the reason we're checking those
20 is to ensure we're meeting those polarized voting target
21 numbers.

22 COMMISSIONER LERNER: And do we have those for each
23 county?

24 Like, I'm thinking -- I'm looking over here at --
25 I'm just getting familiar with -- with map 3.2 so, but I'm

1 looking and we have Cochise County as pretty much almost its
2 own district right there.

3 So do we have some of those other counties, are we
4 able to look at that or you're going to look at every
5 legislative district and kind of run those numbers? Is that
6 what you're saying?

7 MR. D. JOHNSON: So the -- the nice thing of using
8 the benchmark elections, the governor's race and the
9 attorney general's race is that those incorporate into them
10 the dynamics of each county, so you'll -- those reflect the
11 changing crossover as we go from county to county.

12 So I don't know if Legal has anything to add to
13 that as well.

14 MR. HERRERA: I mean, I would just add a couple of
15 things.

16 One is we have obviously seen some of the polarized
17 data at the county level, at least for some counties in
18 Arizona, through Lisa Handley's presentations. I think we
19 will be ready to do a district-by-district analysis. We
20 have a meeting, actually, with our experts at 6:00 a.m.
21 tomorrow to finalize that, but it looks like we'll be ready
22 to do that tomorrow, and then we can provide that kind of
23 information at the district level.

24 COMMISSIONER LERNER: Great. Thank you.

25 MR. FLAHAN: So they are working very hard in the

1 workroom, they still have a little bit more to go, so we're
2 not ready -- we don't have anything to show you right this
3 second on the congressional districts; but we hope to get it
4 done soon and then share it with everybody as soon as
5 possible.

6 CHAIRPERSON NEUBERG: And in terms of process,
7 you -- you let the staff know, the staff will text us or
8 just let us know when -- when the maps are live?

9 MR. FLAHAN: Yes.

10 CHAIRPERSON NEUBERG: Okay. Awesome. That would
11 be great.

12 COMMISSIONER LERNER: And you should be able to get
13 us the legislative sometime tonight, you think?

14 MR. FLAHAN: I -- I think we should have time to do
15 the legislative. At least one, but I think there's plenty
16 of time to do two.

17 MR. D. JOHNSON: Yeah. Certainly we'll try; don't
18 be surprised if we're finishing legislative tomorrow morning
19 while you're debating the changes in the congressional map.
20 We may need that time, but we'll try.

21 One of -- one of the things -- just so you
22 understand, the change -- one of the things that happened is
23 when we pull the Latino Coalition proposed District 7, turns
24 out it has a huge impact on our configuration of -- of the
25 rural District 2, and so we've got to go back and revisit

1 how we implement that with -- while minimizing that district
2 which we already have tons of direction and Commission
3 guidance on.

4 So those are the complications that everything
5 ripples around, but they're working through it.

6 CHAIRPERSON NEUBERG: If there's no other questions
7 on that item, we're going to skip Agenda Item No. VIII,
8 Executive Director's report and discussion thereof, for the
9 sake of time and defer that to our agenda tomorrow.

10 Agenda Item No. IX, in-person public comments. We
11 can skip that as well given the conversation we had the
12 other day.

13 Agenda Item No. X, next meeting date will be
14 tomorrow, October 18th, 2021, at 8:00 a.m. I look forward
15 to seeing you again bright and early.

16 Agenda Item No. XI, closing of public comments.
17 Please note members of the Commission may not discuss items
18 that are not specifically identified on the agenda.

19 Therefore pursuant to A.R.S. 38-431.01(H), action
20 taken as a result of public comment will be limited to
21 directing staff to study the matter, responding to any
22 criticism, or scheduling the matter for further
23 consideration and decision at a later date.

24 We get to Agenda Item No. -- oh. I -- did I say
25 XI?

1 I think I have my numbers all mixed up. What's the
2 next -- I have IX but I think it's XI? I have my numbers
3 all mixed up.

4 It's Agenda No. XII, adjournment. I will take a
5 vote.

6 Vice Chair Watchman.

7 VICE CHAIR WATCHMAN: Aye.

8 CHAIRPERSON NEUBERG: Commissioner Mehl.
