IRC Mission: The Independent Redistricting Commission’s mission is to redraw Arizona’s congressional and legislative districts to reflect the results of the most recent census. The concept of one-person, one-vote dictates that districts should be roughly equal in population. Other factors to be considered are the federal Voting Rights Act, district shape, geographical features, respect for communities of interest and potential competitiveness. The state Constitution requires the commissioners – two Republicans, two Democrats and an independent chairperson – to start from scratch rather than redraw existing districts.
A new Arizona Independent Redistricting Commission was appointed in January 2021 to adopt new congressional and legislative districts for Arizona.
